*Compatible with most TV remotes

IR controlled premium cabinet lift

Operated through the IR Receiver attached and your TV's or any other device's IR remote (no extra remotes required). The Premium has all the possible perks. It can lift heavier and bigger screens than the Eco. Unique and patented TV weighting system stops and raises the lift slightly even if a slight obstacle is encountered - therefore protecting both the unit and the users around it. Additional power cord allows connecting TV directly to the lift - no need for extra cables. Power Guard function protects the TV from lowering it when turned on - cutting the power of the screen so that it's always hidden securely. Electric motor protected from too much load and overheating. 5 Year warranty with over 80 thousand cycles on full load ensured. Active RJ-45 Port allows using all the SBAJ accessories with this unit.

**Universal IR
multicode receiver**

**Easy stroke
adjustment**

**Active RJ-45 socket
+ Power Guard**

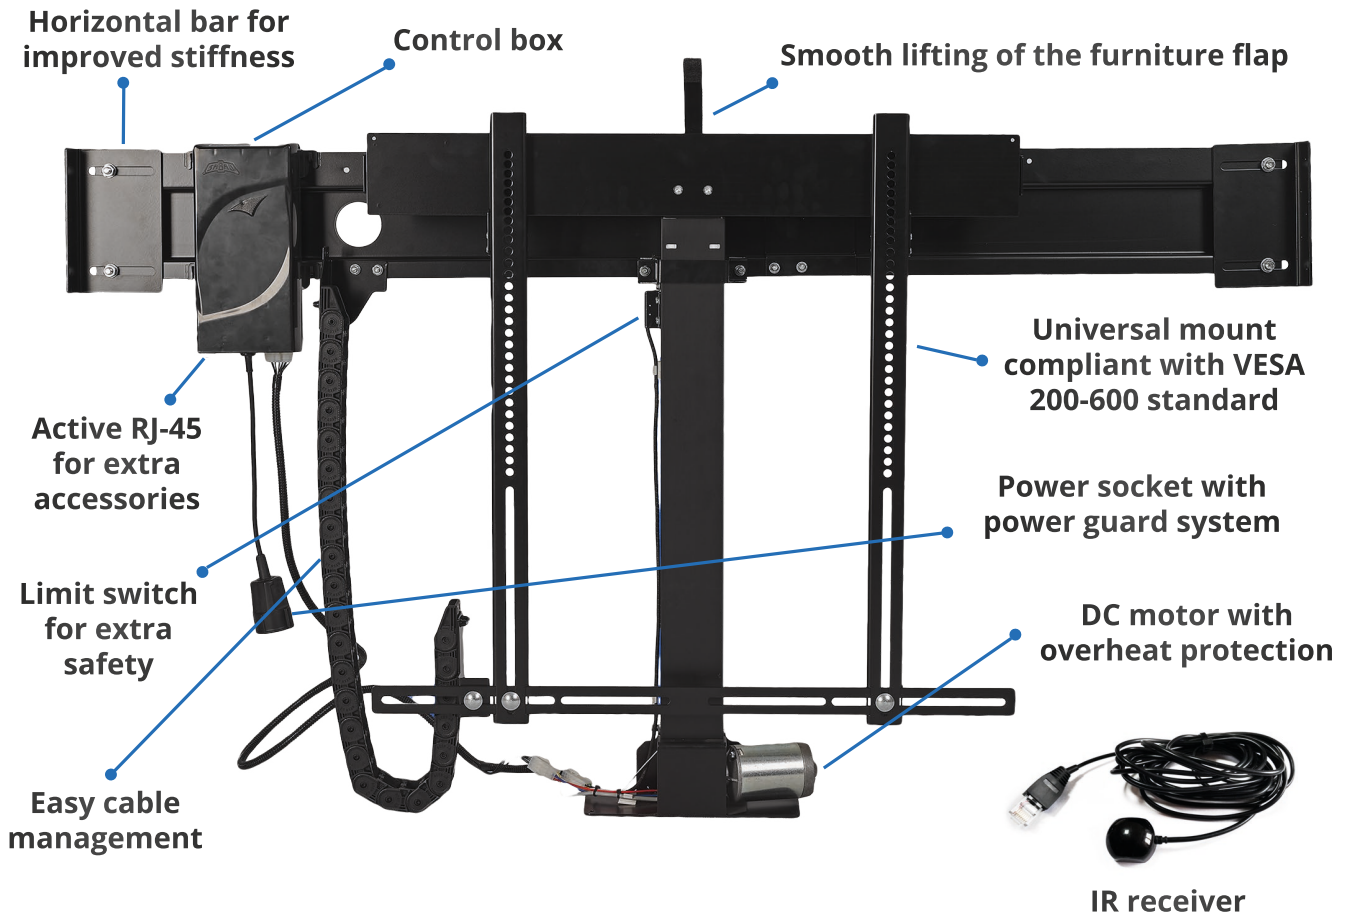

**Safety
systems**

**Cable
guide**

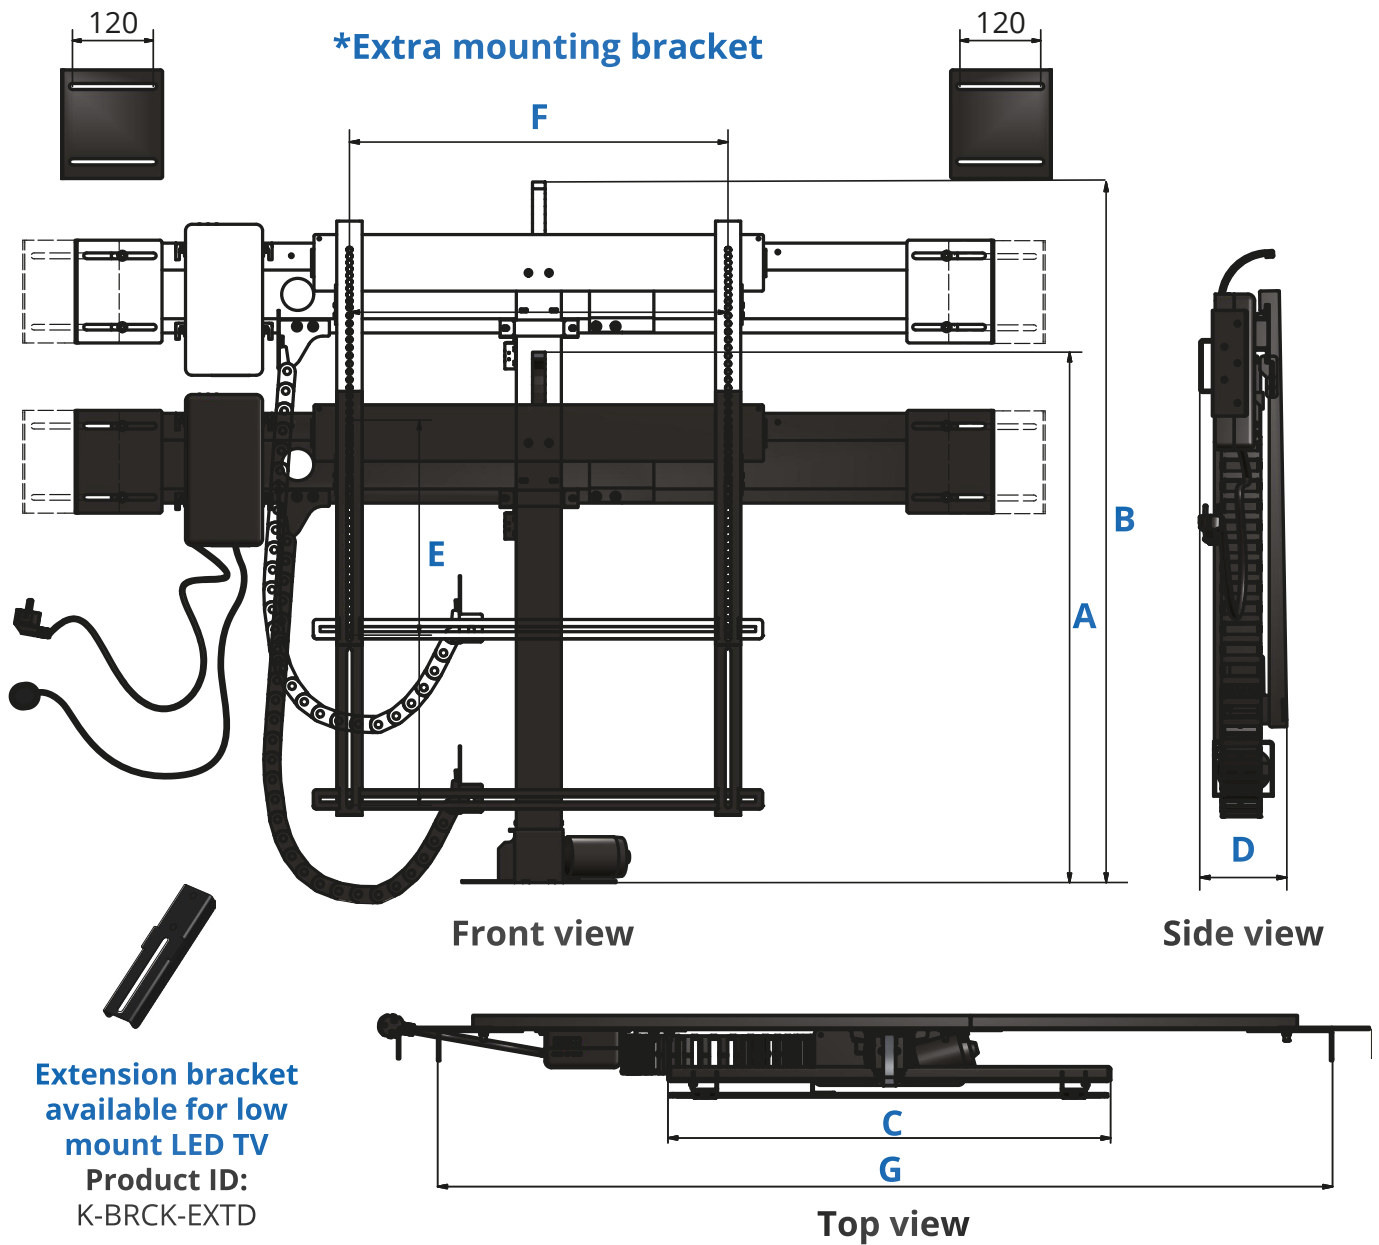

**5 year
warranty**
