

Cabinet lift system ECO RF

K-Eco series is a budget version of K-Type. RF Operated remote controller attached - RF signal can easily go through wooden furniture, eliminating the necessity of wiring antennas or receivers outside the furniture. Lift is equipped with an electric motor safety system, that prevents the motor from overheating by carrying a load that is heavier than possible. Viewing position is programmed with the control box - a very easy procedure, properly described in the attached manual. Universal TV mount covers VESA standards from 200x200 to 600x600 and everything in between. The digital display shows all the necessary operational commands and programming modes.

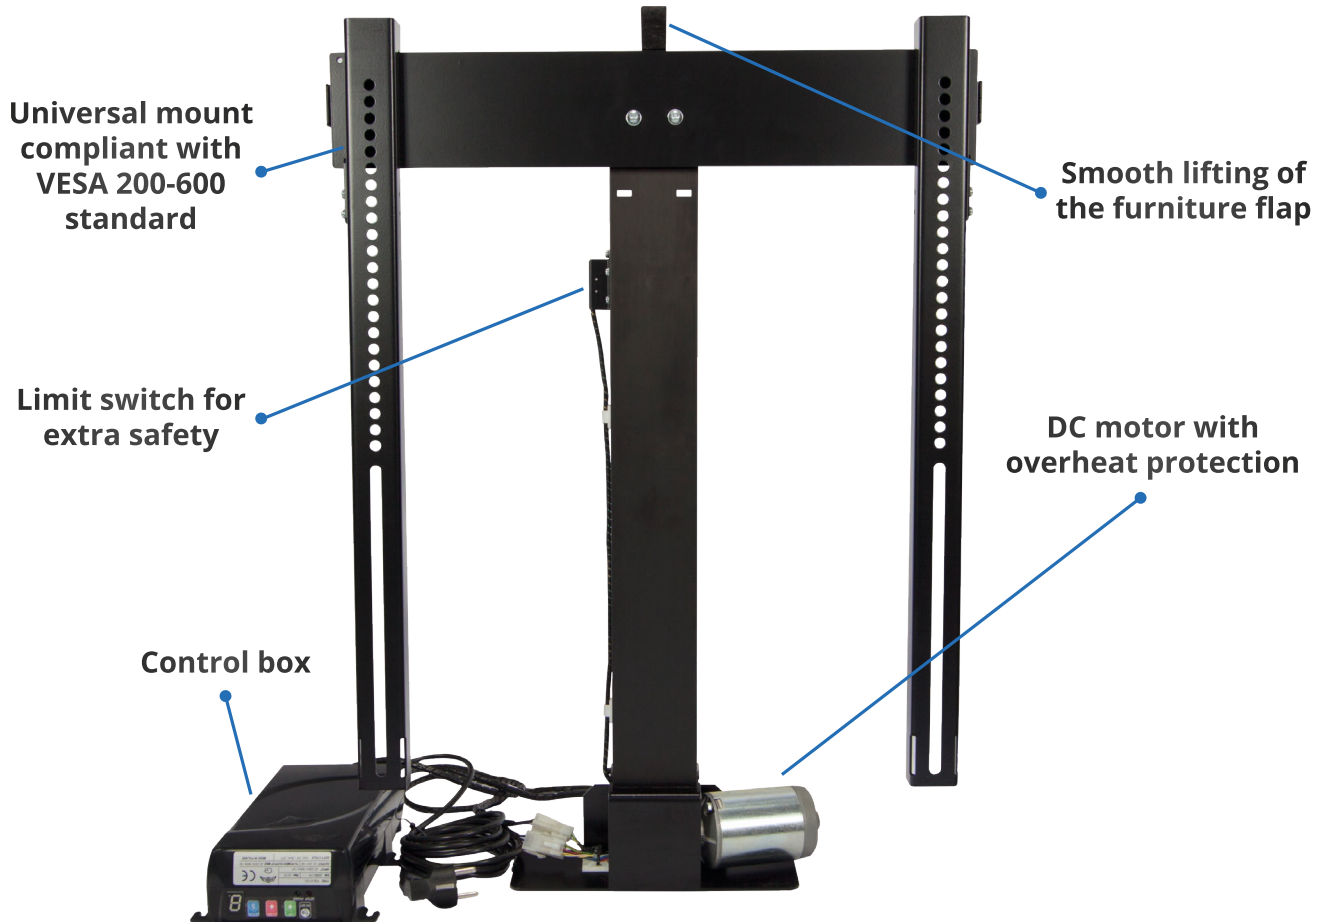

RF remote control included

Easy stroke adjustment

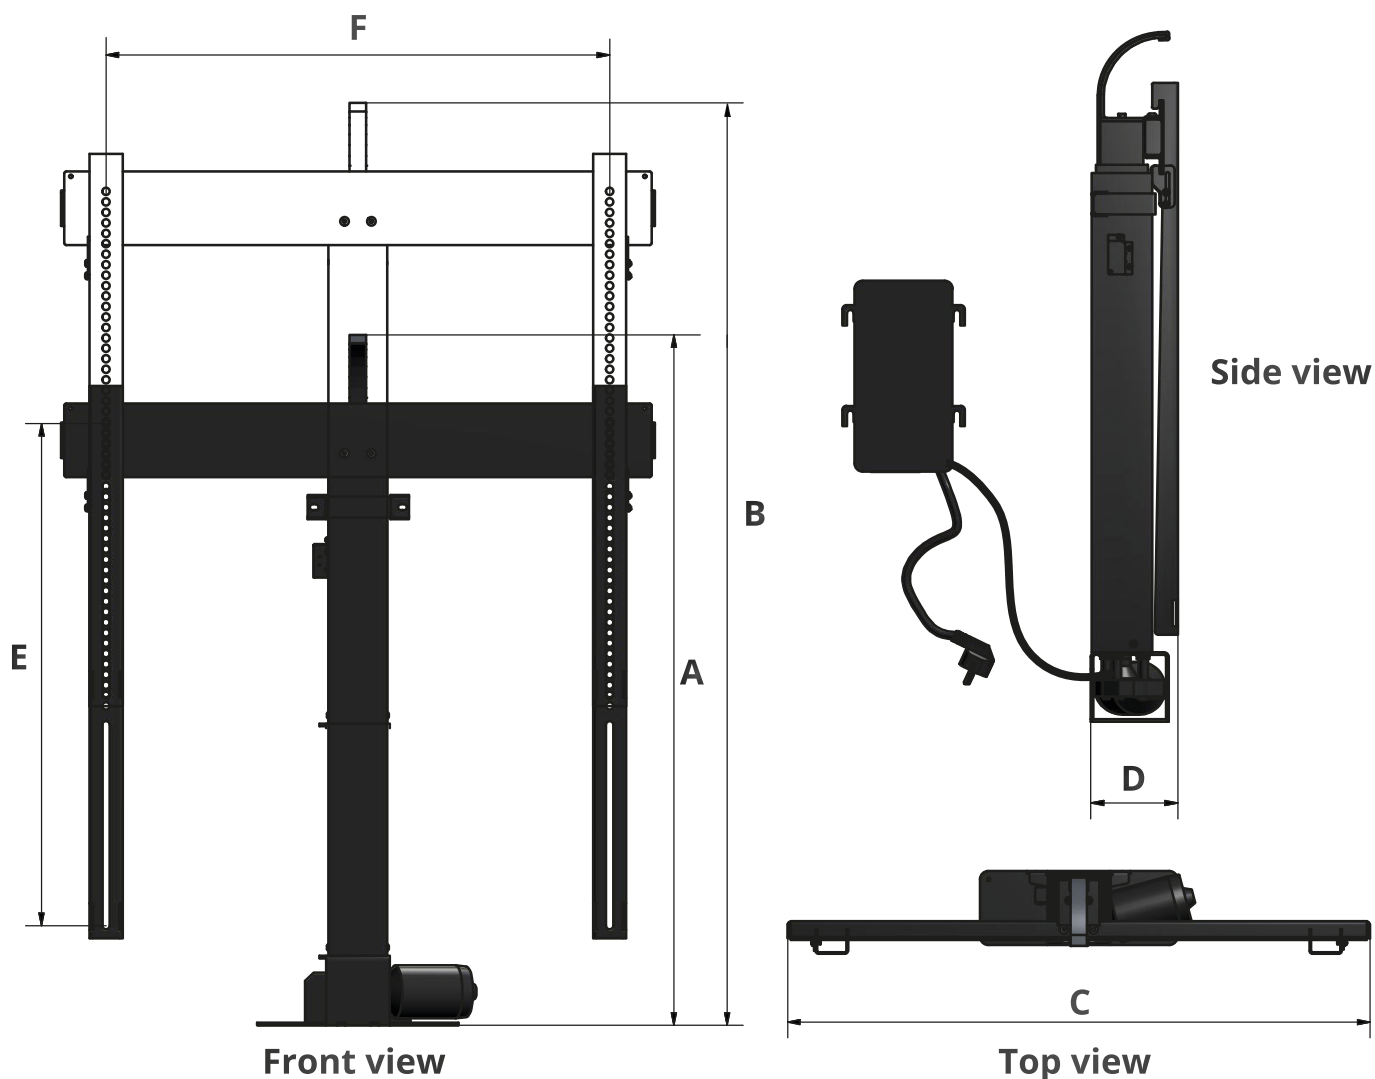

5 year warranty

Compatible accessories on pages 56 - 57
